## **KAPAA BEACH SHORE PROTECTION KAPAA, ISLAND OF KAUAI**

**Project Location.** Kapaa is on the east coast of the island of Kauai. The shoreline at Kapaa fronts public property and extends northward from the Waiakaea Canal to approximately 1,300 feet north of Moikeha Canal. A 25-foot wide sandy beach extends along the 2,000-foot long reach between the two canals.

**Authorization.** The project was authorized in June 1975 under Section 103 of the River and Harbor Act of 1962, as amended.

**Local Sponsor.** County of Kauai.

**Completed Work.** The completed project consists of restoration of a 400-foot section of beach by placement of 6,000 cubic yards of sand, rehabilitation of a 150-foot section of Moikeha Groin, and 70 feet of revetment along the north bank of Moikeha Canal. Project construction was completed in September 1976.

**Present Status.** Corps of Engineers and County of Kauai representatives perform annual inspections. The cost of the project was \$215,832 (federal: \$158,916; non-federal: \$56,916).
